Hi Tocky,

Ok, here's the original message (Nov. 30)...I'll send the other attachments one by one tomorrow, as I must leave for a performance now.

Best,

Vin Scrima

**Subject:** Re: Update

Hi Tocky,

So sorry to hear of your family's loss!

I had a good friend pass away a week ago last Tuesday as well and another friend whose wife has ordered out of his home in a potential divorce action over the weekend, so I have a idea of what you are going through!

Just to keep you updated, on Tuesday, 11/28/06, I went to the Town of Hampton's town hall and inquired whether or not Mr. Boucher had pulled a permit for the fence.

Although he had pulled a permit for the fence he erected late last spring in the rear of the property, he did not have a permit for the fence to which I object. (I will attach the permit designs here.)

Please note that page 4 is Ernie Cote's survey plan supplied to Mr. Boucher in 1998 that has been the source of Mr. Boucher's misunderstanding of the true property boundary line ever since. (Please note especially Mr. Cote's measurement from the rear corner of the Boucher house to where he claims the property line is.)

Mr. Boucher did not extend the fence the full length of the property primarily because if he did so, even with the flawed boundary line as outlined by Mr. Cote, Mr. Boucher would not have room to park a single vehicle alongside the house...at least as presently configured.

As I told you when we met, that house was constructed to the maximum

12/4/2006

Set back at the time and was designed to be a center front entrance, not a side entryway. However as Hampton's enforcement of their no on-street parking ban has become more stringent, there is only (and just barely at that) room for one car parked in front of his home, given Mr. Boucher remodeling of his front porch into an extension of the house (complete with a new foundation over last winter/spring) with a side entrance.

I am contemplating whether to file an official complaint with the building inspector's office, or whether I should make at least one more attempt to speak in a civil way with Dick about taking down the fence prior to any snowfall.

It is my understanding that his permit for the back fence expired on 11/28/06 (the same day as my inquiry) and that the building inspector will now send out a letter informing him that he has been negligent in completing the permit process as a final inspection is required.

Since the building inspector will have to make a trip out to the property anyway, perhaps that may be the most effective way to persuade Mr. Boucher to remove the fence. Any thoughts?

My concern is not to inflame an already potentially inflammatory situation, so that the only possible outcome is a court action (as you know).

On the other hand, I don't want to let this situation go unchallenged either formally, or informally for too long.

I think once people get used to the idea of something being permanent and no abutter having an objection, the harder it may be for them to accept removing the fence.

I clearly feel that removal of the fence should rightly be Mr. Boucher's expense as I feel that I have done everything in my power to avoid this current dispute (short of a court order).

Anyway, please take good care your friend...God always smiles on those of us called to help others in their time of need. Surely, God loves the world by means of us!

Again, so sorry for your loss!

Best,

Vin Scrima

Hi Tocky,

As per our phone conversation just now, I resent my message of November 30 (with attachments) to you again, moments ago.

Having considered your email regarding your conversation with Dick Boucher, I just want to mention that I think that Ernie Cote's placement of monuments was in error both in the front of the property, but also along the rear line as well.

Mr. Cote was originally hired by John Kelly in preparation for the sale of some of his properties. (At one time Mr. Kelly and his sister, I believe, owned all the adjoining and adjacent lots in the rear of my family's property.)

When Mr. Cote completed his survey, he moved (by feet) all the long-standing borders along the rear of the property. (I believe I mentioned this to you when we met.) In any case, Mr. Cote's original survey and subsequent boundary settings of the Kelly properties caused a big problem/disagreement between the Kelly family and the Bosco family.

Mr. Boucher then asked Mr. Cote to set his front boundaries and that's when the problems first arose.

Mr. Boucher himself told me that he paid Mr. Cote \$300.00 at that time for his partial survey.

Effectively, Mr. Cote moved longstanding boundary lines for perhaps as many as 8 properties. (Now, I'd like to think Mr. Cote was sincere in his placement of those boundaries but if I were a more cynical person, in retrospect, it sure seems like a good tactic to drum up business from other neighbors in the area.)

In any case, I am as concerned about the placement of the rear monuments every bit as much as with the placement of the front (Campton Street side) marker.

Mr. Boucher's statement as whether he does know which marker is "right" is specious at best as he has admitted both in person, and in writing, that he has been in error as to where the the placement of (2) past fences were and where paving has exceeded the proper boundaries.

I even tried to help Mr. Cote save face by faxing him John Durgin's Survey of my mom's property and suggested to him that he reconsider his marker placement with the knowledge of Durgin's survey in hand. Mr. Cote said at the time (approximately 1 1/2 years ago), that either he, or his son would go back out to the property and reset the boundaries. Whether he did so or not, I don't know.

I further suggested to Mr. Cote, that perhaps he should have a conversation with his client, Mr. Boucher, regarding the very strong probability his original survey may have contained an error.

Anyway, I hope that clears up some of the history of this problem for you.

I did want to point out however that although Mr. Cote's rear placement seems close enough to the telephone pole in the rear of the property, I am just as concerned that the telephone pole marker may be every bit as much

12/4/2006

the front marker.

Best,

Vin Scrima

PS: I sincerely hope that your friend will find consolation and solace soon...life is too short for extended suffering.

PPS: I want to mention that Mr. Cote's survey of the Jamieson property was/is the source that allowed the Town of Hampton to approve their addition of yet another (3rd) story to that house, adjacent to my family's open lot at 39 Thornton Street. Therefore I am suspicious as to the validity of monuments he set regarding the boundaries of the Jamieson properties as well.

tell me about the poles in the rear of lot.....do you know, have they been replaced since 1950? also it might help to have the pole numbers next time you are up this way.

Hi Ms. Bialobrzieski (Tockey) (sp?) -

Attached here is the survey/plot plan that Mr. Durgin did for my grandfather and then later my parents of our property at 24 Campton Street, Hampton, MA.

This house was probably the 1st or 2nd house erected in the "Sun Valley" area of Hampton/Seabrook Beach. (I have pictures of my grandparents in front of the property, surrounded by nothing but dune grass and a dirt road.)

Thank you for being so helpful earlier this morning and I will be in touch later this week.

If you have any problem opening this attachment, please let me know and I will be happy to mail a copy to you.

Best,

Vinny Scrima

Hi Tocky,

Here is some of the correspondence we shared via email in June of 2005.

Obviously, now you have my email address again with receipt of this message.

As I mentioned on the phone, Mr. John Durgin's survey/plot plan (of which I believe you have a copy) was accepted and recorded by the Rockingham County Registry of deeds by a Ms. Cathy Ann Stacey on 6/16/2005 as a true survey.

The plan is registered in Book 4496 PG 2326, and the accompanying statement is recorded in Book 4496, PG 2325.

It was so nice talking with you just now and look forward to your call, or email, as soon as you have re-familiarized yourself with the property.

Best,

Vin Scrima

(617) 776-4239

PS: (I do now have the information about which you had asked regarding the utility poles.)

Hi Tocky,

I don't think the poles have been replaced since 1950, But I will research that topic both anecdotally with my mom, and with whomever would have been the successor to AT&T and/or Hampton/or Seabrook Electric Co.

I will be in Hampton later this week and will get the pole #s at that time.

Thanks again...

Vinny Scrima

11/7/06

Hi Tocky,

Here is the Survey-Plot Plan again in case you deleted it.

The principal issue is that my neighbor, Mr. Boucher, Lot #411, has a false view of where his property ends...this despite being told both in person, in writing and me having faxed this survey plan to Ernie Cote.

Although Mr. Boucher has both in writing and in person acknowledged that he has been wrong about the boundary and eventually took down his first 2 fences, he has now built a 3rd and also has never removed paving, clearly on my family's property, as he has promised on numerous occasions.

I did speak with Mr. Cote shortly after I had spoken with you and he admitted to me that he had 1) never pulled the plot plans, 2) had not re-surveyed Mr. Boucher's property, only found his own metal "hubs" from an older survey of Mr. Boucher's property, circa 1990 or 1991. He had not pulled the plot plans in 1990/1991 either.

You should know also that my mother, most probably under her maiden name of Mary Pappalardo and then later, along with my father, Vincent J. Scrima, owned the Boucher lot, #411, for many years.

The lot (#411) was an empty lot until my parents sold it to a Mr. Fothergill, I believe in the late 1960's/early 1970's. (I will find the exact date for you asap.)

The other issue was to also survey the empty lot belonging to my family across the street from the Boucher property on the ocean (39 Thornton Street), lot # 432.

Please let me know if I can clarify anything at all for you, as I have extensive knowledge of the history of the property and the area.

Best,

Vin Scrima
